As seen in "W" magazine!

Faces Med Spa is now offering Slim Lipo™, the 21st century solution for *contouring your physique™*

SlimLipo™

Slim Lipo™, a minimally invasive surgical procedure gently "melts" and removes fat cells, tightens the skin and reduces irregular contouring that exercise programs can't. This treatment can sculpt most areas of your body from your cheeks to the bottom of your calves.

It's time to put the bra bulge and muffin top on notice.

*Regards,
Dr. Gerrish &
Dr. Vander Kolk*
